

THE BLADE

We've made it easier for you to place obituaries in other markets.

As a service to our funeral home partners, *The Blade* will now offer an easy way to place obituaries outside of the Greater Toledo Area. When you use your login to our self-service portal and at the end of placing your obituary with *The Blade*, you will see:

Getting the word out about the passing of a loved one is hard. Let us help

Families and funeral homes across the country have asked to make it easier to honor their loved ones by placing their obituary in additional newspapers. Hometowns, retirement homes, and other places they have lived, may want to know of their passing. You can easily, and without starting from scratch, place in over 3,300 US newspapers by pressing the button below.

**Please note, you can pick another newspaper immediately or you can wait for a later time. The notice will be saved in Memoriams under your Home Page.*

SEND EMAIL CONFIRMATION

PICK ANOTHER NEWSPAPER

If you wish to place an additional obituary in one of 3,300 newspapers across the USA, simply click the orange button, and select the city and state. The content from your obituary will carry over so you don't have to re-type the wording or upload the photo again. You will receive pricing and confirmation from the additional newspapers on the spot—just like you do when you place an obituary with *The Blade*. We offer this as a service to you—*The Blade* makes no revenue from this process.

You no longer have to find the names, pricing or go back and forth with other newspapers—a few simple mouse clicks provides this premium service for the families you serve without an enormous investment of your time. Of course this service is 100% optional to use—it is provided as a convenience to use as needed.
